St. Louis, MO 63108

Dear Bill:

Evelyn and I are very pleased with the materials you sold us for the Museum. We are enclosing our check. As you know we may have to return or exchange some of the items and we will adjust that in due course. The plans are virtually completed and we will have the look of an old two story library in miniature.

Thank you for your help.

Sincerely,

Eric P. Newman

Re: Money Museum

Gentlemen:

You will recall that we felt that your construction plans for the museum library and curator's office were too minimal and that a more effective and attractive library and office was necessary. As a result, we hired an architect and have purchased materials with your encouragement. We enclose the plans for your approval. You have agreed to make available to us the estimated cost of the library construction work you planned which was \$10,886.12. We will pay the excess unless you feel you want to participate further. We would appreciate the details on your furniture provisions for that area so we also may consider using that total against our expenditures for furniture.

We are looking forward to checking the working drawings for the museum cases for the public room since you indicate they should be ready promptly.

Sincerely yours,

Eric P. Newman

Dear Eric:

We have reviewed your architectural drawings for the museum library and curator's office. There was one minor change that has been discussed with your architect. Mr. Malin agreed to this change, and he will revise his drawing Number 2 in accordance with our request and date them July 21, 1977.

You have our approval to proceed with your plans. We do need to discuss your plans for installation and the requirements for the overall coordination of the project. Please contact me on this matter.

I would appreciate copies of the revised architectural drawings.

Sincerely,

A handwritten signature in blue ink, reading "Thomas A. Bangert". The signature is fluid and cursive, with a large initial "T" and "B".

St. Louis, MO 63166

Dear Tom:

Thank you for your letter of July 29, 1977, approving our letter of June 20, 1977, and the plans submitted with it, subject to a minor modification to which our architect readily agreed.

We will be glad to discuss with you the installation procedure. We will ask the mill to prepare the carpentry parts so that they are ready for installation soon. If there is any provision which should be made for the security you plan for this area, please let me know.

I understand that you are having one museum case built for the public area which will be shown to us for approval and further suggestions. We had hoped that final drawings would have been available before the case was actually made, but you indicated you prefer to have one case made first. We look forward to the prompt completion of the case by your contractor.

I hope some way can be found to expedite the completion of the museum.

Sincerely,

Eric P. Newman

Lou Maline called

Said Baigent agreed
to Permkoff doing the basic
library work for Mercantile.
When asked when we could
start Baigent said he
had to get together with
Newman on cases. Case would
be ready in a week he said.

I told Maline that library
had nothing to do with cases +
should proceed, that cases
had no drawings and that sample
case would not be right as
lighting + other elements had not
been approved or studied enough.
Urged Maline to get Permkoff to proceed
with library so we could get our fixtures
out of storage

Re: Office & Library
The Money Museum
Mercantile Center
St. Louis, Mo.

Dear Eric:

I have obtained a price for the use of a clear bullet resistant plexi-glas-glass sandwich panel in lieu of the $\frac{1}{4}$ " tempered glass originally specified for the sidelite adjacent to the entrance door.

For the $\frac{7}{8}$ " sandwich panel including the credit for the tempered glass, there will be an extra cost between \$175 and \$200.00.

The bullet resistant panel will be the same as that to be used in the show cases planned for the big general Museum area. This will consist of a piece of $\frac{1}{4}$ " tempered glass on the outside face of the library, a middle section of $\frac{1}{2}$ " plexi-glas, and a piece of $\frac{1}{8}$ " glass on the inside of the library.

Approximately four to six weeks delivery is anticipated after the date of order of the special panel.

Please let me know if you want to substitute the $\frac{7}{8}$ " panel for the $\frac{1}{4}$ " tempered glass.

Sincerely

Louis Malin
